

INTRODUCING The one product for many of your wellness needs.

Good for Hydration

Juice Rush® products are an ice based product which makes them great for hydration. They're easy to serve, spoon, and easy to eat!

Healthy, "Real" Fruit Content

All Juice Rush® flavors are made with 100% fruit juice and are the equivalent of a half cup of fruit!

The benefits of a clear cup

Everyone — kids especially — will love the clear cup that shows the bright, delicious looking contents inside.

The benefits of colors

Anyone who sees the brilliant colors will want a Juice Rush® cup. If you need dye-free, naturally flavored products, try Strawberry Mango or Mango Heat!

Great choice of flavors

No matter the age, our Juice Rush® flavors are designed to please. Taste tests have shown our product is preferred over other ice products.

Perfect for anyone, anytime

Juice Rush® is great for lunch, dinner, after surgery, or floor stock. It's the one treat that fits many needs, and gives peace of mind service.

Contact your Hershey's® Ice Cream representative to try one.
